

# Natural and organic cleaning products

## To clean burnt pans and pots:

Put 4 Table spoons of Bicarbonate of soda and water in the pot/pan.

Boil gently.

Stop the heat and remove the pot from hob.

Let it sit for a day.

Rinse, it's done.

Redo it if needed.

### **Important note:**

Do not use Bicarbonate of soda on iron and aluminium.

Find all formulas in the booklet "DIY, Make your own cleaning products".
