

Natural and organic cleaning products

Organic laundry powder

57% organic ingredients

Made from French vegetable oils

No palm oil, no artificial flavour, no preservative and no additive.

Washing machine soap preparation:

10 g for a 5 Kg washing machine.

Low temperature efficient.

If the water is hard (limestone water) add 1 TS of bicarbonate of soda.

You can add:

Percarbonate of soda as a stain remover, deodorizer and whitener.

Soda crystals to dissolve grease and to increase the efficiency of the washing powder.

Vinegar for brightening colours and soften the laundry.

Hand wash:

5 g for 2 litres of water.

You can use the percarbonate of soda, soda crystals and vinegar as described above.

Find all formulas in the booklet "DIY, Make your own cleaning products".
